

Global Presentation

A young company But with 20 years experience

2003

Set-up of Lenze manufacturing plant

May 2004

Start of Electronics Manufacturing

2008

Work in progress for the
building of the extension

2009

Mechatronics Assembly

Aug. 2022

Takeover of the site as MBO
By Antoine & Francis

FOCUS 2030

Be an unavoidable actor
of decarbonation
in e-mobility

Our mission

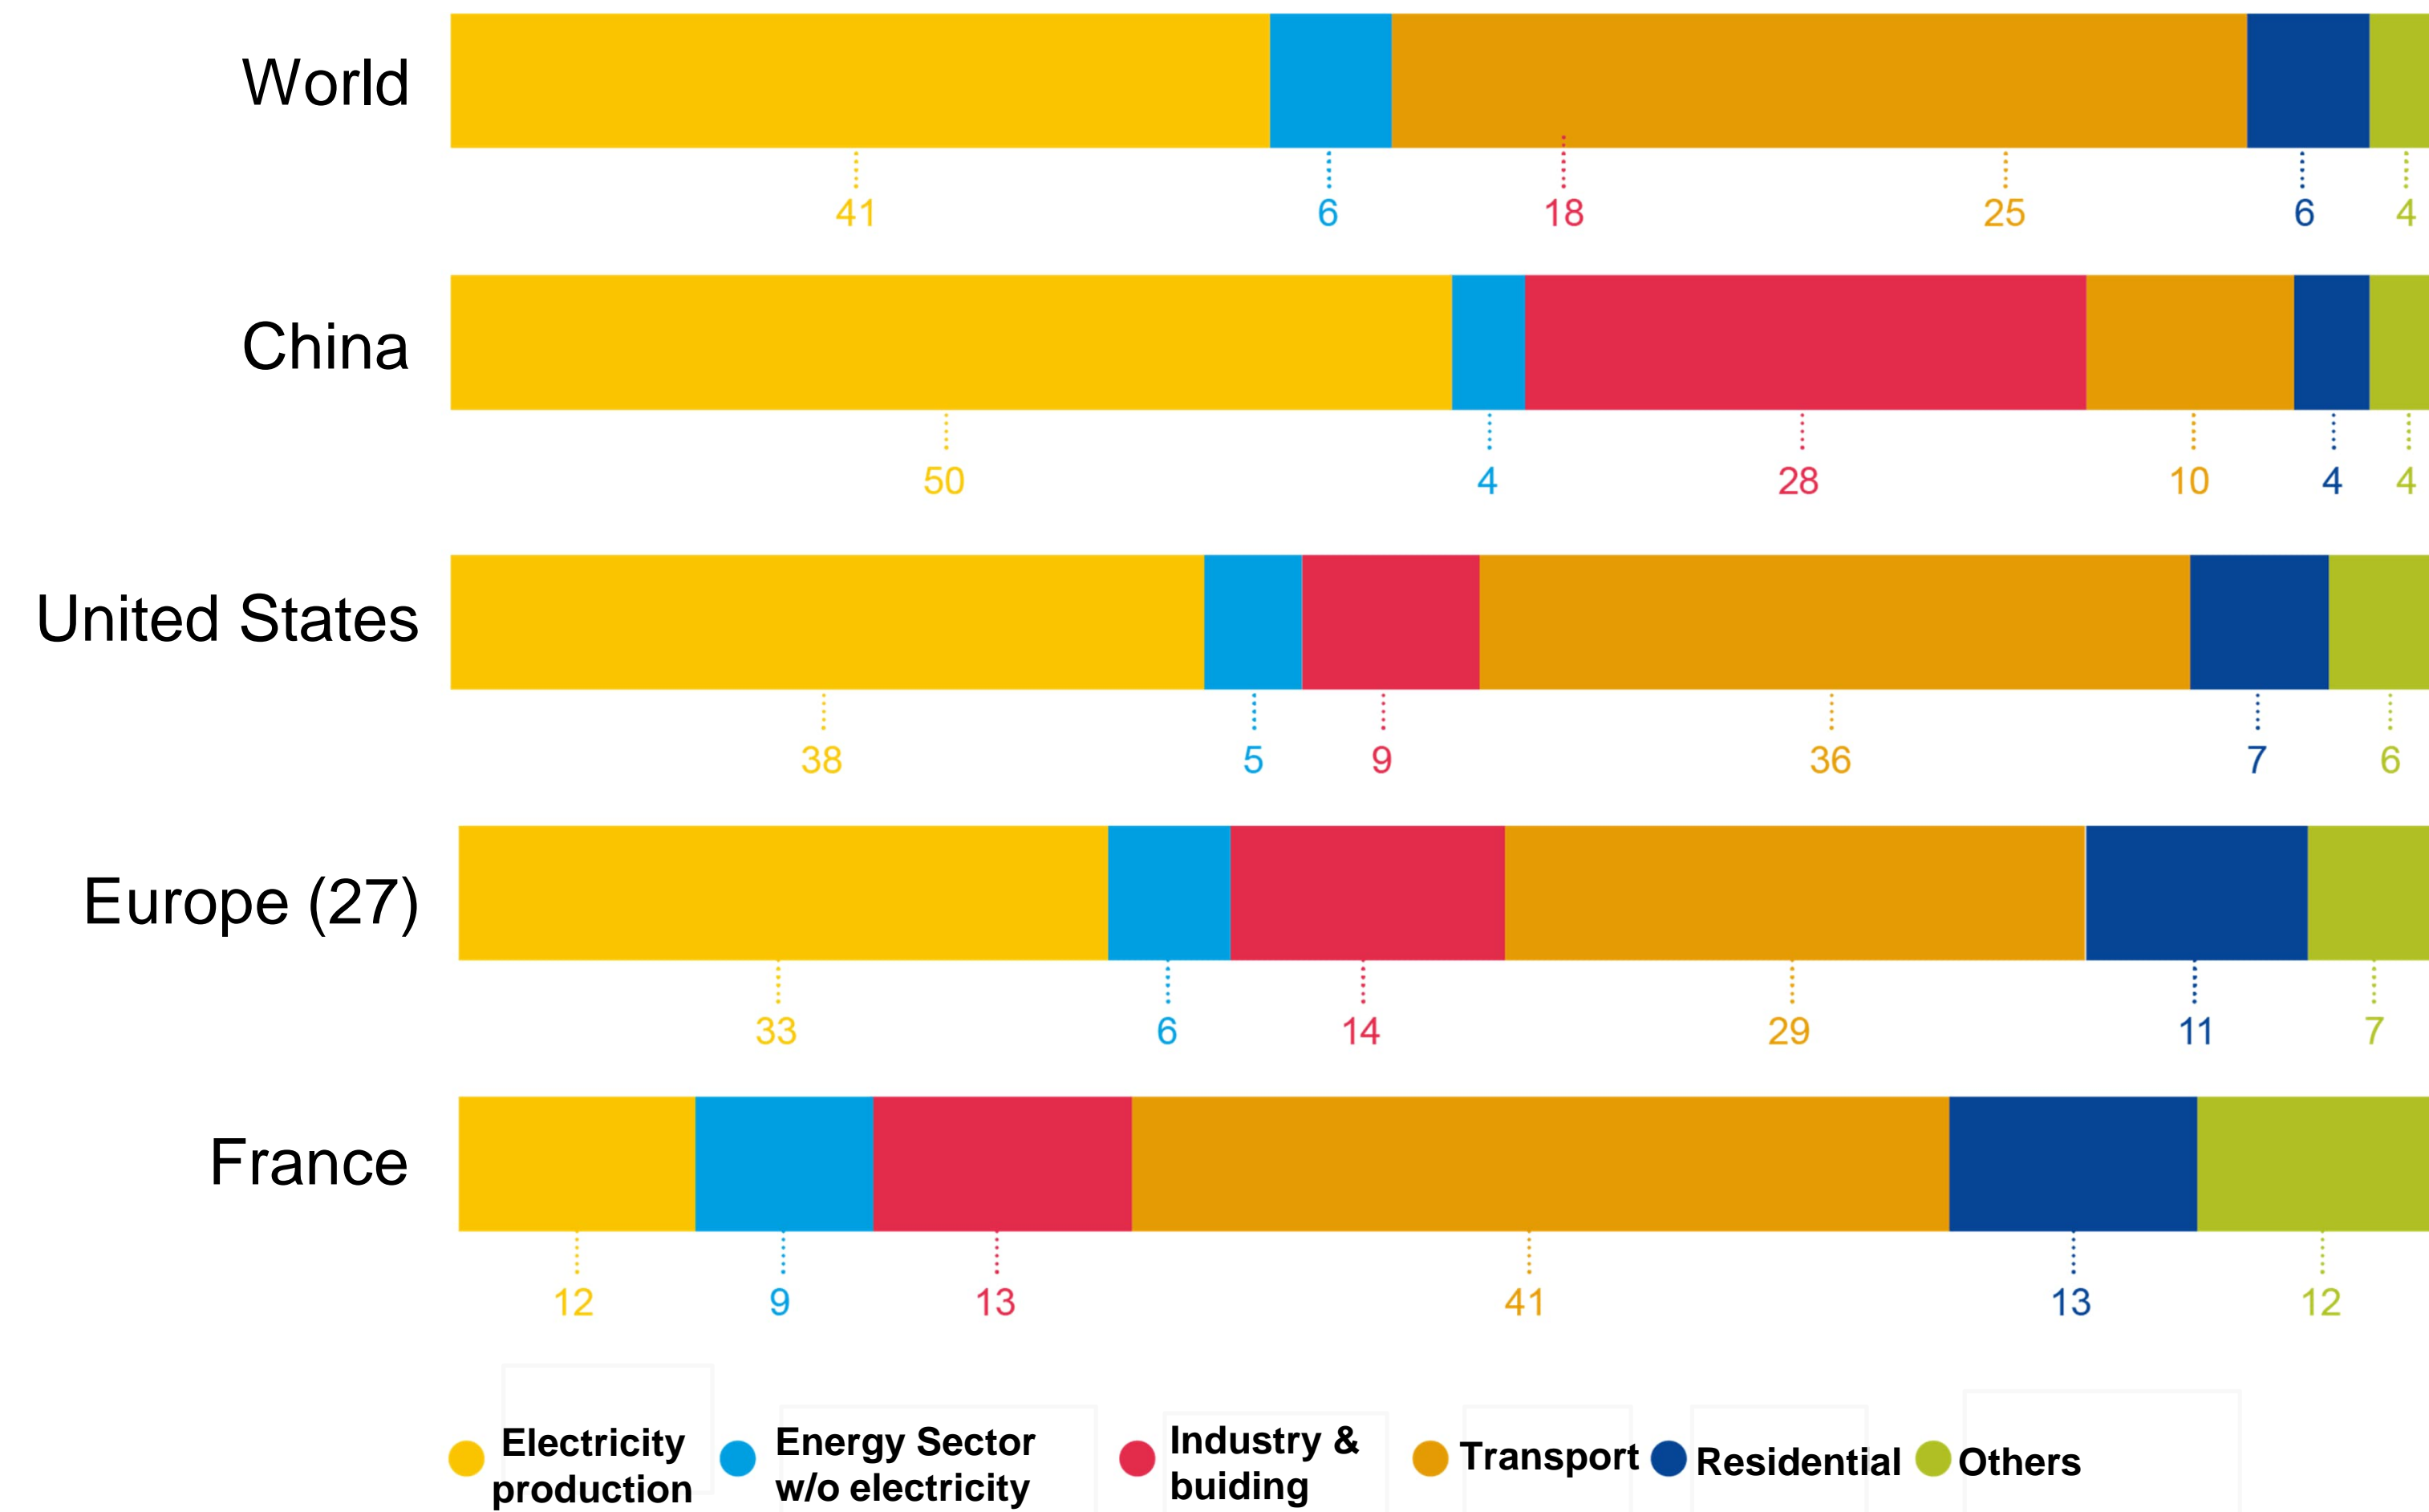

Take part in the worldwide decarbonation by providing technological and pragmatic equipments covering current and nowadays' expectations.

Facts

Transport, industrial activities and energy production take part for more than 75% to CO2 emissions..

Source of co2 emission Energy combustion rate in 2018

Source : AIE, 2020

Our focus industries

MOBILITY TRANSPORT

GENERAL INDUSTRY

ENERGY

Our focus industries

MOBILITY TRANSPORT

Be the reference equipment supplier of the driving chain
In the new mobilities

GENERAL INDUSTRY

Be a supplier of sets or subsets to improve performance and energy footprint in industrial equipments

ENERGY

Take part to the global improvement of energetic footprint, using our expertise in power electronics

Projects for Mobility & Transport
